## PROFILE

Results-oriented, high-energy, hands-on professional with **3+ years'** experience in android feature development and maintenance. An enthusiastic team player and deep creative thinker.

## PROFESSIONAL EXPERIENCE

### Samsung Research Institute, Noida

Software Developer (July 2016 – Present)

Developed and maintained features for **Samsung Knox** and **Secure Folder** lock screen and settings.

Samsung Knox is an enterprise security solution that allows business and personal content to securely coexist on the same handset.

Secure Folder is an application that allows the user to keep his/her data in a separate secured folder.

Notable accomplishments include -

- Developed dedicated fingerprint feature in Secure folder for flagship devices (Samsung S8 and Note 8) which allows the user to directly launch Secure folder from phone's lock screen.
- Designed and developed the logic for integrating Knox's lock screen with that of Google's Android For Work.
- Developed PoC for 'face as lock type' for Knox.
- Implemented lock screen GUI for Samsung Knox and Secure folder.
- Responsible for training new developers that maintained Knox's lock screen module for all the Samsung's phone and tablet projects worldwide.

## SKILLS

### Programming Languages

C	★★★★☆
C++	★★★★☆
Java	★★★★☆

### Tools

VCS: Git, Perforce  
Android Studio

## EDUCATION

National Institute of Technology, Patna (June 2012 - June 2016)

Bachelor of Technology • CGPA **8.72** • %age **82.02**

XII<sup>th</sup> (March 2011 - March 2012)

CBSE • %age **85**

X<sup>th</sup> (March 2009 – March 2010)

CBSE • CGPA **9.4**
